**The Methodist Ministers.**  
The members of the First M. E. church and Stapp's Chapel are fortunate in the possession of excellent pastors, who have served the congregations with great acceptability during the past year. Rev. James Miller and Rev. Geo. E. Scrimger go the Conference at Springfield to-morrow and both will undoubtedly be returned, as such is the unanimous wish of both congregations. It is not likely that Bishop Newman will disregard the desire of the Decatur Methodists, who certainly do not want a change.

**A Possible Strike.**  
The Springfield miners and mine operators having failed to agree on the restoration of wages to the district scale, the miners held a meeting in the suburbs of the city Sunday and appointed a committee to make a formal demand for the advance. It is said that the ultimatum of a strike is behind the demand.

**The Fire.**

An assay was made in August by the government, the report being \$50,540 in the ton. Col. Kirk has the Hotel Brunswick with his samples to be exhibited to any citizen who may call upon him. He says there is millions in the mine, which only needs money to operate it.

**REPUBLICAN MEETINGS.**  
The Republican missionaries were at work again Saturday night and presented the truth to large rallies of voters and ladies.

Senator W. C. Johns and I. R. Mills, candidate for state's attorney, addressed a big meeting at Elwin, in Wheatland township, Saturday night. The young ladies' club from Macon was in attendance in uniform, and added to the interest of the meeting by their fine appearance. Mr. Comand presided at the meeting. Senator Johns spoke at some length, in answer to a speech delivered recently by C. A. Ewing at that place. It was the verdict of the attentive listeners that Mr. Johns got the best of Mr. Ewing in the discussion of the tariff and other living issues. Mr. Mills shook up the Democratic dry bones in a vigorous speech, and the meeting closed with the usual demonstration of Republican enthusiasm.

Mr. Thomas Lee arrived home Sunday morning from Ivesdale, Champagne county, where on Saturday night he addressed the people. The crowd was so large that Mr. Lee had to speak from the depot platform. **Hog Cholera near Moweaqua.**

Hately has lost seventy-five. Thos. Porter and George Russell a large number, and others are sharing the loss. It is a severe loss to the farmers, as the hogs were ready for the market. They can get no remedy that will stop the disease.

**More Sewer Action.**  
Nearly 250 people were present at the opening of the mass meeting held in the circuit court room Saturday night, to give public expression in opposition to the city council plan of building district sewers on the assessment plan. Ex-Mayor Priest presided and J. G. Badolante, served as secretary. The following was the action of the meeting:

Resolved, That without offering any objection to such system of sewerage as the city council may deem necessary, we condemn the proposition to pay for the same by special assessments, and demand that such system of sewerage be constructed on the basis of public improvements by unlimited special assessments, and demand that whenever special assessments shall be necessary for public improvements they shall be levied on a reasonable proportion of the value of the property assessed, and the benefits received; that we desire the repeal of the ordinance levying the city into two sewerage districts and the construction of a sewer in the Second district.

Messrs. Priest, Lindsey and Badenhausen were made a Citizens Public Improvement Committee, the chairman of the same being instructed to call a meeting when necessary.

It was also moved and carried that the committee signing the call for the meeting be instructed to present their views of the meeting to the council and endeavor to secure a reconsideration of the sewerage question.

Preliminary addresses were made by John Lindsey, Ald. Finn, A. T. Hiley, Frank Chambers, E. S. McDonald, B. I. Sturtevant, Ald. W. Foster and Bert Stewart. The gentlemen united on the point that if the sewers are constructed they should be paid for by general taxation, so that the financial burden would be properly divided.

**He Was a Rebel—Now a Republican.**  
The following letter has been received by a Decatur Republican, telling of a genuine hop in Indiana:  
K. M. FRIED, PROPRIETOR,  
TITTON MILLS AND ELEVATOR, DEALER  
IN FLOUR, MEAL, FEED AND GRAIN,  
TITTON, IND., Sept. 15, 1888.  
DEAR SIR—Your favor of August 28th, addressed to R. K. M. Fifer was put in general delivery here and advertised. Hence, cause of my not answering you before. My name is not Fifer and not Fifer. This letter I received to-day. It gives me pleasure to say that the statement is literally true. In 1861 I attached myself to the rebel cause, and I have always voted the rebel ticket. I served in the Confederate army, enlisted with a mere boy. I was wounded five times, one of which made me cripple for life. I shall vote for Harrison and Morton on November next, and I hold now 25 names of as staunch and reliable democrats as ever voted the ticket, who will vote for Harrison; also. We know two men, along with thousands of other democrats, who are so educated that it was the same damnable doctrine of free trade that led to secession, secession to the Civil War, and now after 25 years of peaceful submission to the Union, we are again to be divided into two parties for no other cause or purpose than to keep a few men in power, and to turn over our grand government to a man who is ever ready to steal with money or his guns, every advantage that a nation may be able to gain by trade. I am on the stump in this country from principle and trust to God next November we may bury the Democratic party beneath the ruins they truly made in the South and North. With a hearty shake of your hand, I am, very truly yours,  
K. M. FRIED.

**The Minstrels.**  
On Friday night we are to have a visit from the great Minstrel, Ranza and Arno minstrel troupe. You see the bills and lithographs about the city. The agent says the scenes presented will be faithfully shown on the stage.

Dr. T. P. HUBBELL showed us the other day an ear of corn plucked from a field in St. Clair county. The size of the ear and the capacity of the grain prove that they will have "corn in Egypt" this year.

Sister TERRA, sister of Charles Laux, of this city, who had devoted her life to good works, is dead. She passed away at Springfield Friday night. Charles Laux and family are at Springfield attending the funeral.

**Got off Easy.**  
Two young men from Macon got into trouble in Decatur Sunday night. They said they got to drinking hard cider at Macon Sunday, and feeling pretty good they drove to Decatur in a buggy. They put up their rig at a feed yard, and then went to the Logan House on East Main street to find a friend. Coming out they picked up a hat belonging to a guest. They were run down by Officers Midkiff and Curran, who found the stolen hat, and put the Macon chaps in jail. They confessed to the theft and were let off to-day with a fine for disorderly conduct. Their experience will be profitable to them as a lesson not to drink too much hard cider and to keep the wadlings off their fingers.

Rev. R. M. ROBERTS, of Minneapolis, occupied the pulpit at the Presbyterian church, yesterday forenoon, and preached an excellent sermon from the text, "God is our refuge and strength, a present help in trouble."

**Decatur 10; Bloomington 9.**  
It was a chilly day for a ball game, but a fair sized crowd was at the park Sunday afternoon to witness the exciting finish between the Decatur Reds and the Bloomington Chicks. It was mainly a battle of pitchers and Flynn got the best of it, though he came near destroying his lead by bad throws. The score:  
Decatur.....0 3 2 0 0 2 0 4 0-9  
Bloomington.....1 0 1 2 0 1 0 4 0-9

Base hits, Decatur 10; Bloomington 5. Errors, Decatur 11; Bloomington 23. Batters, Decatur, Flynn and Payne; Bloomington, Dixon and Daily. Struck out by Flynn, 13; by Dixon, 9. Umpire, O'Brien.

It is surprising how Scanzlan's famous song of Peeka-Deo still retains its hold upon the public. He is compelled to sing it at every performance, and it is always redemanded. At the opera house to-morrow night.

Wrought Steel,  
No Dust,  
Very Little Fuel,  
No Leaky Joints.

No one can say that the time was not ripe for a new furnace. The days of brittle, porous, cast iron furnaces are numbered. In every branch of manufacture cast iron is being driven out by wrought iron and steel. Every bridge that goes down in a wreck of lives and property is found to have cast iron members. Every bursting cannon which slays its friends rather than its enemies is made of cast iron. Every same cheap, unreliable material. Improved methods of manufacture have made steel and iron plate, of first quality, less expensive than cast iron formerly was, and it is plainly in accord with progress in other directions that there should be progress both in design and the material of furnaces for warming our homes, churches and schools.
